

DR. JILL WADE ACHIEVES THE DISTINCTION OF MASTER OF THE ACADEMY OF GENERAL DENTISTRY

On July 8, 2010 Dr. Jill Wade will officially earn her Mastership from the Academy of General Dentistry (MAGD). This prestigious award is only achieved by less than 1% of all dentists. It requires over 1,100 continuing education hours, which in turn allows her to offer the latest in techniques to her patients.

Continuing education is the key to success in any patient focused profession. It allows Dr. Wade to stay abreast in the latest techniques and products in the dental and healthcare field. "I truly feel that continuing education is the best way for me to stay up to date on the ever changing field of Dentistry. Offering the best care I can give to my patients is of utmost importance to me," Dr. Jill Wade states.
